

# Propellor Tables

Design by Jonas Wagell

### **Propellor Tables by Jonas Wagell**

Propellor is a set of uncomplicated tables with a lightweight look but heavy duty construction. They are an interpretation of a typical café table with a tripod base, pole and tabletop, but with simplified forms and scaled down for a graphic and playful regeneration. They may be used singly as compact side tables or grouped in varying heights and colors for a bouquet of tables.
